

ARBOUR ECO

DESIGN BY ANDREAS ENGESVIK & DANIEL RYBAKKEN

Embodying the concept that design should follow construction, Andreas Engesvik and Daniel Rybakken's Arbour is assembled from separate components that have been independently produced for optimal comfort, quality, and efficiency. This sofa was developed with an intention to create a durable sofa that would qualify for the Nordic Swan Ecolabel within the European market, and it features FSC-certified wood for the frame and selected, eco-labelled upholsteries for the covers. The seat and back cushions are made in carefully balanced proportions, with identical side cushions creating a sense of harmony and offering the opportunity for multiple comfortable sitting or lying positions, while the frame creates a strong yet elegant profile with an architectural quality.

With its logical construction and uncluttered design language, Arbour Eco fuses its distinctly Scandinavian aesthetics with high comfort and great durability.

PRODUCT DETAILS

- / Elegant sofa with a clean and simple silhouette.
- / Offers optimal comfort, quality and efficiency.
- / Eco-friendly sofa.
- / Nordic Swan Ecolabelled.
- / FSC-certified wooden frame.
- / Loose cushions and removable covers.
- / Available in a variety of eco-labelled textiles and frame colours and finishes.
- / The individual components can be replaced and recycled.
- / Suitable for a wide variety of private and public environments.
- / Qualified for contract use.

CERTIFICATIONS

The Nordic Swan Ecolabel works to reduce the environmental impact from the production and consumption of goods. Products with the Nordic Swan Ecolabel are free from harmful chemicals such as phthalates, heavy metals, brominated flame retardants, and fluorinated substances. Beyond looking at the raw materials used for a given product, the Nordic Swan Ecolabel requirements also include usage, disposal and recycling. Before a product receives the Nordic Swan Ecolabel, it must provide documentation that it meets all environmental requirements as well as quality requirements, to ensure that it will have a long life, which further limits waste.

Made from FSC™-certified and other controlled materials.
