

A close-up photograph of a wooden chair seat and its red frame. The seat is made of light-colored wood with a visible grain and is rounded at the edges. The frame is a dark red color. The background is plain white.

Volar

The Volar chair strikes the perfect balance between visual simplicity and physical tenacity. The cantilever design gives Volar a light sculptural form that charms from all perspectives. Yet underneath this simple elegance is an unwavering sturdiness that makes Volar suitable for hospitality, residential or educational settings.

Volar

Information

Design

Alexander Lotersztain, 2016

Environment

Indoor & Outdoor

Warranty

5 year structural

Certifications

GECA certified

Materials

Upholstered elements constructed using Dunlop Enduro® foam with MDF substrate, upholstered in Customer's Own Material (COM) and/ or Leather (COL). Frames in powder coated mild steel. Seat tops in solid timber or LDPE plastic.

Notes

- Volar can be used outdoors by applying a zinc undercoat before powder coating. Only LDPE plastic tops are suitable for outdoor use.
